\*Disk space refers to how much space your files require on the server and is measured in megabytes (Mb). The transfer rate refers to how much data transfers across the Internet as viewers access your site (more use, more transfer). Transfer rate is measured in gigabytes per month (Gb/month).

Overages beyond 400 Mb and 8 Gb/month will be charged at \$3.50 for each 20 Mb of disk space and \$2.50 for each additional Gb of transfer up to 25 GB. Overages are unlikely unless you sell downloads of music, video, or software over your site.
